

For the first time in a long time I am not having my day interrupted, especially during family time in the evening by "unwanted" telemarketers who hound and badger the general public. I have a telephone to call and receive calls from friends, relatives, doctors, dentists; definitely not telemarketers. It is my constitutional right to privacy to not be disturbed. I view telemarketers as "Home invaders." I urge the FCC to leave the New Jersey Law in tact! Thank You
